

Rethink your relationship with tires

Approved Purposes – Hauler

The following are the approved purposes that a Hauler may deliver Used Tires to. Note that delivery to an Approved Purpose does not necessarily guarantee payment of a Transportation Incentive (TI). Refer to the Hauler Guidebook for more information on TI eligibility.

- Delivery to a registered Processor
- Delivery to another registered Hauler
- Delivery to a Reuse end-use (retreading or sale as a used tire)

NOTE: In all cases the Hauler is responsible for providing supporting information demonstrating Used Tires are ultimately delivered to an Approved Purpose, including in situations where the receiver/customer/purchaser of the Used Tires subsequently supplies them to another customer.
