

ROYAL WINTER FAIR

FALL 2015

tierraverde

365 DAYS NO CRACKING
GUARANTEE

Self-Watering Planter

The Tierra Verde family of planters was create to make life easier for today's consumer. We wanted to create the ultimate planter so that you never have to be worried again about plants dying or your planter cracking or being damaged by extreme cold weather. All Tierra Verde planters feature our 365 day "No Cracking Guarantee", and, because we manufacture using recycled rubber, we have all the confidence in the quality of our products as they are extremely durable and require virtually no maintenance whatsoever. Being fully featured, our planters are self-watering, so they can be left unattended for up to a week, and actually, can be used indoors as well, as long as you leave the drainage plug in. We are very proud of the fact that we have been able to take what was once an environmental problem and turn them into very attractive and functional planters.

Tierra Verde diverts tires destined for landfills and turns them into high value, aesthetically-pleasing products

We are eco friendly!

tierraverde' **SELF-WATERING URNS**

- Classic urn is designed to beautify any outdoor entry way, patio, deck and more...
- Unique design allows it to be perfect for any classic or contemporary setting
- Due to its unique formulations, this planter will not crack in any weather, so you can have leave it outdoors 365 days a year. As like the rest of the family, the Crescendo urn is self-watering so that plants stay properly hydrated
