

Rethink your relationship with tires

OARA TIRE TAKE BACK EVENT

Turn Scrap Tires into a Child's Dream and Eco-Friendly Community Improvements

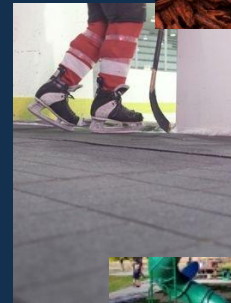

COMMUNITY PRIZE OF \$15K WORTH OF ONTARIO RECYCLED TIRE PRODUCTS

Ontario Tire Stewardship (OTS), as part of the 2013 OARA Tire Take Back event, is offering a Community Prize to create excitement about this important recycling event, encourage community participation and underscore the connection between high value, green products and responsible tire disposal.

The Community Prize is a gift in kind of up to \$15,000 worth of recycled tire products from OTS registered Recycled Product Manufacturers (RPMs). The Ontario Auto Recyclers Association (OARA) member that collects the most used tires from residents in their area during the event period (May 27 – June 1, 2013) will be able to designate a local, non-profit community project to receive this gift in kind.

IMAGINE THE POSSIBILITIES FOR YOUR COMMUNITY!

- Rubber mulch for community gardens
- Flooring for local hockey arenas
- Outdoor tiles for the public square
- Recycled rubber pavers for downtown sidewalks
- Safety surfacing for playgrounds
- Composite shakes for bandstands or outdoor theatres

To learn more about the possibilities, visit OTS' new website at www.RethinkTires.ca

Products must be sourced from RPMs registered with OTS. Prize covers product cost and delivery only. Does not include installation. No cash substitutions.

Products must be selected and installed in the designated community project by June 30, 2014. Prize recipient must agree that they will not seek remuneration for OTS's use of their organization name, project name, logo and any photos taken of the project and has the right to use these in its promotional activities. The project site must be publicly and wheelchair accessible. Project installation must be undertaken and completed in compliance with all applicable codes, by-laws, statutes or other applicable legal or regulatory standards. Recipient must install signage provided by OTS, in a visible location.

The project site and sign must be well maintained by the designated recipient. OTS accepts no legal liability for the project.
